To Carry On as Channel Partner For Word Book Of Records & World Standardization Certification (WSC), London, UK. To carry on the business of electrical work including Rural Electrification, business of electrical engineers, meter reading related works, installation of electrical transformers, substations, contractors, manufacturers, suppliers of and dealers of electrical and other appliances, cables, wire lines, dry cells, accumulators and distributor manufacturing, distribution, transmission, generation, supervision and controlling of all types of power either mechanical, hydraulic, gas, wind firms, solar etc. including seller, buyer, agent of solar panels, solar equipment, solar systems, components and parts.** The company boasts of a glowing track record of successful implementation of highly complex projects in tight time and cost schedules. This has been

achieved because of the core group of extremely committed technocrats and software professionals with over 200 man years of experience. A state of the art, cutting edge infrastructure with a 3000 sq.ft. of area at Bhubaneswar, in the eastern part of India and its unique '**philosophy**'. All these together have contributed to its tremendous success, in its mission of surpassing customer expectation in delivering exceptional values to its customers.

The 'philosophy' focus on the **Open Source, Out Sourcing and Off Shore Development**, which together offers the customer the tremendous benefits of extremely fast development cycles, better quality of software solutions and substantial savings in cost. Its location too has played a major role in this; India offers the inherent advantage of highly evolved software talent being available. The eastern India city of Bhubaneswar, with more than Ten Engineering Colleges churning out thousands of computer professionals provides the company with the unique advantage of access to the finest talent.

### **Incorporation**
